Cut Out Sizer Instructions:

- > Print and carefully cut out ring sizer. Cut the small slit that is marked with an arrow.
- > Place ring sizer comfortably around finger by slipping pointed end through the slit, numbers facing out.
- > Secure the ring sizer by pulling the pointed end snugly around your finger like a belt, tight but can still move it around. Be sure it's not too tight or too loose.
- > Your approximate ring size should be the number that appears where it says "Read Size Here".
- > Note: we currently only offer whole sizes 4-16.

Ring Matching Instructions:

If the finger is not available for measuring (i.e. gift/tragedy), use a ring from the individual's current jewelry collection. Place the ring on a circle from the chart below. The correct circle size should fit well against the **inside** edge of the ring.

Measuring Instructions:

Measure your finger by wrapping a string around it. Find the length of the string that makes exactly one loop around, and use the chart below for reference.
