The **TY D.I.Y. EDITION** shower curtain is made in breathable plastic that is less likely to attract mould and mildew like ordinary vinyl shower curtains. Non-toxic, recyclable and ethically produced by American brand **Grain**, a permanent marker allows you to personalise your shower curtain with an illustration.

MIXOLOGY is the term for preparing cocktails and selecting the ingredients that are combined to create the dream beverage. **Waterford** have cleverly applied this term to their new range of crystal glass wear. Designed for mixing and matching pieces as you please, this range encourages you to pair colours, mix patterns and combine shapes, all with the luxurious weight of quality cut crystal.

Wardrobe organisation – or lack of – is one of the most common domestic faux-pas. Often used as an 'out-of-sight-out-of-mind' type of storage, the purpose of the space is often overlooked and clothing at the back can be forgotten. With this in mind, designer **Ho Sun Ching** re-focuses the purpose of the closet and brings a solution in the form of a stand alone **WALK-IN CLOSET**. This beautifully designed wardrobe attracted abundant attention at the 2012 Dutch Design Week and is now in production stages.
